

All topped up

Howdy, folks! Well, I'm back from Dallas, I've taken my cowboy hat off, and it's business as usual again!

I had a useful time over there, despite the heat (over 100°F at times — 38°C), and a thunderstorm that left us without power for several hours one morning! (*Thought that only happened in Africa...?*) I also learned a lot about the latest versions of our typesetting programs, and was able to get an upgrade which I'll be practising on over here.

My two teachers, **Darrel Eppler** (on the left in the photos) and **Randy Hasty**, have many years of experience between them, and are involved in training new typesetters for service in our various publishing centres around the world. However it was good that I was able to share a few things with them out of my own experience, which they had not been aware of before. So, it was a two-way process.

Thank you for your prayers during this time!
